**APPLICATION OF OHIO GAS COMPANY FOR APPROVAL
OF AN ALTERNATIVE RATE PLAN AND APPLICATION
FOR TARIFF APPROVAL**

In accordance with R.C. 4909.18, 4929.05, and 4929.11, Ohio Gas Company (“Ohio Gas” or “Company”) requests that the Public Utilities Commission of Ohio (“Commission”) approve this application for an alternative rate plan to authorize a Geographical Information System Cost Recovery Rider (“GIS Rider”). As further supported below and in the attached schedules, the implementation of the GIS Rider will have no effect on Ohio Gas’s operating income or earnings inasmuch as Ohio Gas will simultaneously recognize the expenses associated with the geographical information system (“GIS”) project when the associated and offsetting revenues are collected through the proposed rider. The Company further requests the Commission grant any additional necessary and proper relief to allow the Company to implement the GIS Rider.

1. Ohio Gas is an Ohio corporation engaged in the business of distributing natural gas to nearly 50,000 customers in northwest Ohio. It is a public utility as defined by R.C. 4905.02 and 4905.03.

2. On January 28, 2015, Ohio Gas filed an application seeking authority to modify its accounting so that it could book as a regulatory asset the expenses associated with the first phase of a GIS project. *In the Matter of the Application of Ohio Gas Company for Approval to Change Accounting Methods and Defer Expenses Related to Implementation of a Geographic Information System*, Case No. 15-222-GA-AAM, Application (Jan. 28, 2015) (“*GIS Deferral Case*”). The Commission authorized Ohio Gas to defer expenses associated with the first phase of the GIS project, up to a pre-interest cap of \$925,000. The Commission also authorized Ohio Gas to defer the phase one expenses with a carrying cost rate of 4 percent. *GIS Deferral Case*, Finding and Order at 4 (July 29, 2015). Cost-recovery was deferred to a future proceeding. *Id.* at 6.
3. Subsequent to the *GIS Deferral Case*, Ohio Gas filed an application to increase its base rates. *In the Matter of the Application of Ohio Gas Company for an Increase in Gas Distribution Rates*, Case Nos. 17-1139-GA-AIR, *et al.*, Application (Apr. 28, 2017) (“*Rate Case*”). After an extensive audit by the Staff of the Commission and discovery by the Office of the Ohio Consumers’ Counsel (“OCC”), the issuance of a Staff Report, and filing of Objections, the Staff, OCC, and Ohio Gas entered into a Stipulation that resolved all issues including the incorporation of changes in federal tax law that became effective following the issuance of the Staff Report. *Rate Case*, Joint Stipulation and Recommendation (Jan. 26, 2018). The Commission approved the Joint Stipulation and Recommendation on February 21, 2018 and tariffs incorporating the Commission’s Order went into effect on March

- 1, 2018. *Rate Case*, Opinion and Order (Feb. 21, 2018). The *Rate Case* did not provide for any recovery of amounts being deferred under the *GIS Deferral Case*.
4. Ohio Gas moved forward with the first phase of the GIS project and has filed four annual reports detailing the progress of the first phase of the GIS project and the accumulating deferral. In its most recent annual report, Ohio Gas reported that the total deferral asset including carrying costs was \$910,258.75 through December 2018. *GIS Deferral Case*, Report of Ohio Gas Company of 2018 Deferred Expenses Related to its Geographical Information System Program (May 16, 2019).
 5. To amortize the deferral authorized in the *GIS Deferral Case*, this Application seeks to establish the GIS Rider. The GIS Rider will recover the current deferral balance plus the going-forward carrying cost component on the remaining unamortized balance. Based on the estimated effective date of the GIS Rider of January 1, 2020, Ohio Gas projects that the deferral balance will have grown to \$947,281.44, solely as a result of additional carrying costs.
 6. Ohio Gas proposes that the phase one GIS deferral be amortized over a two-year period in accordance with the rates set forth in Exhibit G-5.
 7. Ohio Gas also requests authority to conduct a final reconciliation of the GIS Rider on an automatic approval basis. To provide a final reconciliation, Ohio Gas requests authority to conduct a review and propose adjusted GIS Rider rates to reconcile the revenue collection with the GIS deferral balance and to have the final GIS Rider reconciliation tariff sheet and rates deemed automatically approved on the thirty-first day after filing, unless the Commission takes action to suspend the

automatic approval process within the first 30 days after Ohio Gas files the proposed final reconciliation tariff sheet and rates.

8. On July 1, 2019, and in accordance with R.C. 4909.43(B) and Rule 4901:1-19-06(A), O.A.C., Ohio Gas filed its Prefiling Notice of Intent to File an Application for Approval of an Alternative Rate Plan (“PFN”) and served the PFN upon the mayor and legislative authority of each municipality in its service territory. By letter, Ohio Gas also provided the notice required by Rule 4901:1-19-06(A), O.A.C.
9. In accordance with R.C. 4909.43(B) and Rule 4901:1-19-06(A), O.A.C., this Application is being filed at least 30 days after the filing of the PFN.
10. Contemporaneous with the filing of this Application, and as required by Rule 4901:1-19-06(B)(3), O.A.C., Ohio Gas has provided a copy of this Application to OCC (OCC and Commission Staff were the only parties in Ohio Gas’s last rate case proceeding). Additional copies of the Application are available at Ohio Gas’s offices and online at www.ohiogas.com.
11. In accordance with Rule 4901:1-19-06(B)(1)-(2), O.A.C., testimony in support of this Application is being filed concurrently with this Application.
12. In accordance with requirements of Rule 4901:1-19-06(C), O.A.C., and R.C. 4909.18(A)-(D), subject to the waivers authorized by the Commission’s Entry dated August 28, 2019 in this proceeding, attached to this Application are the following Exhibits.
 - Exhibit A – Detailed Alternative Rate Plan
 - Exhibit B – Discussion Regarding Cross-Subsidization of Services

- Exhibit C – Discussion Regarding Compliance with R.C. 4905.32, Substantial Compliance with the Policies in 4929.02, and Demonstration that Alternative Rate Plan is Just and Reasonable
 - Exhibit D – List of Witnesses Supporting Application Exhibits
 - Exhibit E – Current, Redlined Proposed, and Clean Proposed Tariff Sheets
 - Exhibit F – Schedules required by Rule 4901:1-19-06(C)(1), O.A.C.
 - Exhibit G – Additional Schedules Supporting Application
 - Exhibit H – Proposed Newspaper Notice
13. As required by R.C. 4929.05(A)(1) and (2), Ohio Gas states that it is in compliance with R.C. 4905.35, that it is in substantial compliance with the State’s policies reflected in R.C. 4929.02, and that it will continue to remain in substantial compliance with these policies after this Application is approved.
14. Ohio Gas’s proposed alternative rate plan is just and reasonable as required by R.C. 4929.05(A)(3). The GIS system being implemented by Ohio Gas will support its mission in many ways, including a) providing reliable and uninterrupted service to its customers; b) allowing Ohio Gas to take prompt action when concerns arise; c) maintaining Ohio Gas infrastructure through regular inspections, surveys, responses to customer inquiries, and routine maintenance and repair activities; d) providing additional means to effectively respond to inquiries from the Ohio Utilities Protection Service (“OUPS”), including prompt responses to requests for marking the location of underground facilities; and, e) complying with Commission regulations including rates, efficiency, pipeline safety, minimum service standards

for providing service, consumer safeguards, and various records management and reporting requirements. The costs of implementing the GIS were prudent and necessary business expenses incurred by Ohio Gas that will benefit customers and are not reflected in Ohio Gas's current rates.

WHEREFORE, Ohio Gas respectfully requests that the Commission consider the facts and proposals set forth in this application and approve this application, including the proposed tariff sheets, and provide any other necessary and appropriate relief to carry out the intent set forth in this Application.

Respectfully submitted,

/s/ Frank P. Darr

Detailed Alternative Rate Plan

Exhibit A
Rule 4901:1-19-06(C)(2)(a)
Detailed Plan

GIS Phase I Deferral

On January 28, 2015, Ohio Gas filed an application seeking authority to modify its accounting so that it could book as a regulatory asset the expenses associated with the first phase of a GIS project. *In the Matter of the Application of Ohio Gas Company for Approval to Change Accounting Methods and Defer Expenses Related to Implementation of a Geographic Information System*, Case No. 15-222-GA-AAM, Application (Jan. 28, 2015) (“*GIS Deferral Case*”). The Commission authorized Ohio Gas to defer expenses associated with the first phase of the GIS project, up to a pre-interest cap of \$925,000. The Commission also authorized Ohio Gas to defer the phase one expenses with a carrying cost rate of 4 percent. *GIS Deferral Case*, Finding and Order at 4 (July 29, 2015). The *GIS Deferral Case* deferred resolution of cost-recovery to a future proceeding. *Id.* at 6.

Ohio Gas moved forward with the first phase of the GIS project and has completed the scope of work anticipated in the first phase of the GIS project.

GIS Phase I Deferral Balance

Ohio Gas was required to file annual reports identifying the end of year balance of the GIS deferral. To date, Ohio Gas has filed four annual reports. In its most recent annual report, Ohio Gas reported that through December 2018 the total deferral asset including carrying costs was \$910,258.75. *GIS Deferral Case*, Report of Ohio Gas Company of 2018 Deferred Expenses Related to its Geographical Information System Program (May 16, 2019).

The deferral continues to accrue carrying charges at a rate of 4 percent. As a result, the deferral balance will increase to \$947,281.44 as of January 1, 2020, the anticipated beginning of the amortization period of the deferral. See Exhibit G-4. Carrying charges will continue to accrue on the unamortized deferral balance.

GIS Phase II

Ohio Gas has determined that it will not seek authorization to defer Phase II costs to implement the GIS project. Instead, it will fund the second phase through internal funding.

2017 Rate Case

Following the *GIS Deferral Case*, Ohio Gas filed an application to increase its base rates. *In the Matter of the Application of Ohio Gas Company for an Increase in Gas Distribution Rates*, Case Nos. 17-1139-GA-AIR, *et al.*, Application (Apr. 28, 2017) (“*Rate Case*”). After an extensive audit by the Staff of the Commission and discovery by OCC, the issuance of a Staff Report, and filing of Objections, the Staff, OCC, and Ohio Gas entered into a Stipulation that resolved all issues including the incorporation of changes in federal tax law that became effective following the issuance of the Staff Report. *Rate Case*, Joint Stipulation and Recommendation (Jan. 26, 2018). The Commission approved the Joint Stipulation and Recommendation on February 21, 2018 and tariffs incorporating the Commission’s Order went into effect on March 1, 2018. *Rate Case*, Opinion and Order (Feb. 21, 2018). As part of the *Rate Case*, Ohio Gas included labor expense for an employee that was added to assist in operations including the implementation of the GIS. The deferral for which Ohio Gas is seeking recovery in this case does not include any of the labor expense associated with the new employee.

GIS Rider Proposal

Ohio Gas proposes that the Phase I GIS deferral balance be amortized over a two-year period. Based on the estimated deferral balance as of January 1, 2020, Ohio Gas has calculated and proposes a GIS Rider rate of \$0.86 per bill. See Exhibit G-3. Customers taking service under the General Service and Transportation Service rate schedules would be subject to this rate.

Ohio Gas proposes that the GIS Rider be subject to a final reconciliation associated with the amortization and collection of the Phase I deferral balance. As proposed, the final reconciliation would occur at the end of the two-year amortization period (*i.e.*, the 25th month). Ohio Gas would calculate the remaining balance and estimate the anticipated revenue and propose any necessary adjustments to the GIS Rider Rate. Such adjustments may include a reduction in the rider rate. The final reconciliation would not result in a rate greater than that proposed in this Application.

Furthermore, Ohio Gas proposes an automatic approval process for the final reconciliation rate. Ohio Gas would file a proposed final reconciliation rate at least 60 days before the conclusion of the 24-month amortization period. Staff would have the ability to review the proposed final reconciliation rate and issue a review and recommendation. If the Commission takes no action within 30 days of the final reconciliation filing, then the rate proposed in that filing would be deemed automatically approved on the thirty-first day after the filing.

Although the Commission's order providing accounting authority to defer the phase I expenses required an annual report of the deferral balance, it is not clear if this requirement would carry over once amortization of the deferral commences.

Nonetheless, Ohio Gas would continue to submit annual reports by June 1st of each year identifying the deferral balance and would submit a final report once the deferral balance is completely amortized.

Exhibit B

Discussion Regarding

Cross-Subsidization of Services

Exhibit B
Rule 4901:1-19-06(C)(2)(c)
Cross-Subsidization Issues

Cross-subsidization of services will not occur under Ohio Gas's proposed alternative rate plan. The GIS Deferral Balance has been subject to Staff review pursuant to the annual reporting requirements. Moreover, as provided in the *GIS Deferral Case*, before any collections may begin the GIS deferral will be subject to Staff review and Commission approval. On a going-forward basis, Ohio Gas will continue to provide annual reporting to Staff and the Commission. No rates or charges associated with the GIS deferral will take effect until review by the Staff and Commission. The GIS Rider also reflects the appropriate allocation of cost responsibility among Ohio Gas's tariff schedules. Ohio Gas serves some customers that are served under contracts instead of tariff rates. The rates applicable to these customers are governed by the terms of the contract. These contract customers, therefore, will not be subject to the GIS Rider.

Exhibit C

Discussion Regarding Compliance with R.C.

4929.32, Substantial Compliance with the

Policies in 4929.02, and Demonstration that

Alternative Rate Plan is Just and Reasonable

Exhibit C
Rule 4901:1-19-06(C)(2)(d)
Compliance with R.C. 4929.35 and
Substantial Compliance with 4929.02

Rule 4901:1-19-06(C)(2)(d), O.A.C., requires an applicant seeking approval of an alternative rate plan provide: (1) a discussion of how the applicant is in compliance with R.C. 4905.35; (2) a detailed discussion of how it is in substantial compliance with the policies of the state of Ohio and how the applicant will remain in substantial compliance after implementation of the alternative rate plan; and (3) demonstrate that the alternative rate plan is just and reasonable. As demonstrated below, Ohio Gas meets these requirements.

1. Compliance with R.C. 4905.35

Ohio Gas is in compliance with the four requirements set forth in R.C. 4905.35. Ohio Gas does not make or give any undue or unreasonable preference or advantage to any person, firm, corporation, or locality, or subject any person firm corporation, or locality to any undue prejudice or disadvantage. R.C. 4905.35(A).

Ohio Gas offers its regulated services or goods to all similarly situated consumers, including persons with which it is affiliated or which it controls, under comparable terms and conditions. R.C. 4905.35(B)(1).

Ohio Gas does not offer a bundled service that includes a regulated and unregulated service. R.C. 4905.35(B)(2).

Ohio Gas does not condition or limit the availability of any regulated services or goods, or condition the availability of a discounted rate or improved quality, price, term, or condition for any regulated services or goods, on the basis of the identity of the supplier

of any other services or goods or on the purchase of any unregulated services or goods from Ohio Gas. R.C. 4905.35(B)(3).

The Commission Staff found no issues with Ohio Gas's compliance with R.C. 4905.35 when it just recently completed its audit of Ohio Gas as reflected in the Staff Report in the *Rate Case*.

2. Substantial compliance with the policies in R.C. 4929.02

R.C. 4929.02 provides that it is the state policy to:

- (1) Promote the availability to consumers of adequate, reliable, and reasonably priced natural gas services and goods;
- (2) Promote the availability of unbundled and comparable natural gas services and goods that provide wholesale and retail consumers with the supplier, price, terms, conditions, and quality options they elect to meet their respective needs;
- (3) Promote diversity of natural gas supplies and suppliers, by giving consumers effective choices over the selection of those supplies and suppliers;
- (4) Encourage innovation and market access for cost-effective supply- and demand-side natural gas services and goods;
- (5) Encourage cost-effective and efficient access to information regarding the operation of the distribution systems of natural gas companies in order to promote effective customer choice of natural gas services and goods;
- (6) Recognize the continuing emergence of competitive natural gas markets through the development and implementation of flexible regulatory treatment;
- (7) Promote an expeditious transition to the provision of natural gas services and goods in a manner that achieves effective competition and transactions between willing buyers and willing sellers to reduce or eliminate the need for regulation of natural gas services and goods under Chapters 4905. and 4909. of the Revised Code;
- (8) Promote effective competition in the provision of natural gas services and goods by avoiding subsidies flowing to or from regulated natural gas services and goods;

(9) Ensure that the risks and rewards of a natural gas company's offering of nonjurisdictional and exempt services and goods do not affect the rates, prices, terms, or conditions of nonexempt, regulated services and goods of a natural gas company and do not affect the financial capability of a natural gas company to comply with the policy of this state specified in this section;

(10) Facilitate the state's competitiveness in the global economy;

(11) Facilitate additional choices for the supply of natural gas for residential consumers, including aggregation;

(12) Promote an alignment of natural gas company interests with consumer interest in energy efficiency and energy conservation.

Ohio Gas promotes, encourages, and facilitates these policies.

The Company currently promotes, and will continue to promote, the availability of reasonably priced natural gas services that facilitates the state's competitiveness in the global economy. R.C. 4929.02(A)(1) & (10). Ohio Gas has a long history of providing natural gas service at reasonably priced rates, evidenced by the fact that the Company went over 30 years before seeking its most recent increase in rates. The estimated total bill impact upon approval of this Application for the Company's typical residential customer is a total bill increase of 0.14 percent. See Exhibit F-3, Schedule E-5. Businesses served by Ohio Gas will see an increase of only \$0.86 per month. *Id.* These minor bill increases will cease after the proposed two-year amortization period (and if needed a final month reconciliation). Further evidence of the reasonableness of Ohio Gas's rates is demonstrated by a comparison of Ohio Gas's current rates with those of similar Ohio natural gas utilities. *Rate Case*, Direct Testimony of Kim Watkins at 8 (May 31, 2017).

The Company provides adequate and reliable service. R.C. 4929.02(A)(1). The GIS system will enhance the Company's ability to provide adequate and reliable service

by allowing Ohio Gas to take prompt action when concerns arise, by maintaining Ohio Gas's infrastructure through regular inspection, surveys, responses to customer inquiries, and routine maintenance and repair activities, and by providing additional means to effectively respond to inquiries from the Ohio Utilities Protection Service ("OUPS"), including prompt response to requests for marking the location of underground facilities. Approval of the application will therefore enhance this state policy.

Ohio Gas has promoted and will continue to promote the availability of unbundled services that provide consumers with competition among suppliers to meet the consumers' supplier, price, terms, conditions, and quality options, and has done so and will continue to do so in a manner that reduces or eliminates the need for regulation of natural gas services and goods under R.C. Chapters 4905 and 4909. R.C. 4929.02(A)(2), (3), (6), (7), & (11). Ohio Gas, in conjunction with local municipalities under their constitutional Home Rule authority, implemented community aggregation programs (collectively, the "Community Energy Partnership" or "CEP") that have and will continue to provide customers with a competitive option for obtaining commodity service on price, terms, and conditions that meet the respective needs of Ohio Gas's customers. This Application will not affect the continuation of the CEP and its support for the state policies embodied in R.C. 4929.02.

Ohio Gas further promotes competition by ensuring that there are no subsidies flowing to or from its provision of regulated natural gas service. R.C. 4929.02(A)(8). Likewise, the Company's nonjurisdictional services do not affect the provision of regulated natural gas service and do not affect Ohio Gas's financial capability to comply with the state policies. R.C. 4929.02(A)(9). Ohio Gas underwent a comprehensive Staff audit as

part of its rate case filed in 2017, which confirmed that there are not subsidies flowing to or from regulated natural gas services and which also confirmed the Company's financial integrity. Furthermore, the GIS program was limited to expenses related to the provision of regulated natural gas service. Pursuant to prior Commission authorization, these jurisdictional expenses have been recorded as a regulatory asset on the Company's books. The amortization and recovery of such expenses from customers will not cause a subsidy to flow to or from regulated natural gas service and will enhance the Company's financial capability of continuing compliance with the state policies contained in R.C. 4929.02.

Ohio Gas is in substantial compliance with the state policies contained in R.C. 4929.02. Approval of this Application will not diminish the Company's substantial compliance with these policies, and with respect to certain policies, approval of the Application will enhance the Company's compliance or ability to comply with these policies.

3. Demonstration that Alternative Rate Plan is Just and Reasonable

Ohio Gas's Application is just and reasonable. The GIS system will enhance the Company's ability to provide adequate and reliable service by allowing Ohio Gas to take prompt action when concerns arise, by maintaining Ohio Gas infrastructure through regular inspection, surveys, responses to customer inquiries, and routine maintenance and repair activities, and by providing additional means to effectively respond to inquiries from the OUPS, including prompt responses to requests for marking the location of underground facilities. The GIS system furthered the Company's ability to comply with Commission regulations regarding efficiency, pipeline safety, minimum service

standards, consumer safeguards, and various records management and reporting requirements.

The financial impact on customers is also just and reasonable. Based on the as-proposed Application, the total bill impact for a typical residential customer consuming 100 Ccf of natural gas per month is an increase of only 0.14%. The total bill impact on businesses is only \$0.86 per bill. These minor bill impacts will cease after the GIS deferral has been amortized after the 24-month amortization period (subject to a potential 25-month final reconciliation).

Tariff for Gas Service

GENERAL SERVICE

To any residential, commercial or industrial customer for general service, manufacturing, processing and/or building heating and/or cooling at any one location subject to any governmental restrictions which may affect the Company's ability to provide new or additional gas service. Service under this rate schedule is subject to the Rules and Regulations in this tariff (Sheet Nos. 3 to 8)

DISTRIBUTION RATE

The distribution rate under this schedule includes the base rates and rider rates provided or referenced below.

BASE RATE

Customer Charge	\$9.08 per month
For the first 10,000 Ccf used per month	\$0.15443 per Ccf
For all Ccf used over 10,000 Ccf per month	\$0.09518 per Ccf

RIDERS

Service under this rate schedule is subject to the following riders: Gross Receipts Excise Tax Rider (Sheet No. 11); Percentage of Income Payment Plan Rider (Sheet No. 12); Uncollectible Expense Rider (Sheet No. 13); and GIS Rider (Sheet No. 15).

RECOVERY OF INCLUDABLE COST OF GAS SUPPLIES

Pursuant to Chapter 4901:1-14, Ohio Administrative Code, and by the terms of this tariff, the total rate charges under this schedule consists of the distribution rate plus the appropriate gas cost recovery rate specified in the Uniform Purchased Gas Adjustment Rider (Sheet No. 14).

TRANSPORTATION SERVICE

DEFINITIONS

In addition to the definitions contained in Sheet No. 2, the following terms shall have the meanings indicated below for purposes of Transportation Service (Sheet No. 10), and any defined term contained in these definitions supersedes a definition provided in the definitions contained in Sheet No. 2:

- A. "Ccf" means one hundred (100) cubic feet measured at a pressure of fourteen and six tenths (14.6) pounds per square inch with correction for super compressibility and at a temperature of sixty degrees (60°) Fahrenheit.
- B. "Customer" means an individual, governmental or corporate entity taking transportation service hereunder where the gas is delivered to the Company for the Customer using gas supply allocation, upstream capacity allocation, allocation of responsibility for existing gas supply and related services previously used by the Company to provide bundled or transportation service to the Customer and billing methods developed for such purpose.
- C. "Customer Group" means two or more Customers who combine their gas requirements and purchase gas from a designated pool or program or supplier(s) where the gas is delivered to the Company for the Customer Group using gas supply allocation, upstream capacity allocation, allocation of responsibility for existing gas supply, and related services previously used by the Company to provide bundled or transportation service to any or all members of the Customer Group and billing methods developed for such purpose.
- D. "Delivery Point" means the location at which the Customer first delivers its gas to the Company.
- E. "Firm Service" means the quality of service provided under the terms and conditions of the schedule with the Company providing service absent a *force majeure* condition.
- F. "Gas" means the gas that is redelivered to Customer's meter at the Redelivery Point, and made available to the Company under this schedule.

Page 2 of 10

P.U.C.O. No. 2
Tariff for Gas Service

- G. "Imbalance" means the daily difference between the quantity delivered by the Customer to the Company at the Delivery Point and the quantity consumed by the Customer as measured at the Redelivery Point. It is understood that the quantity received by the Company at the Delivery Point must exceed the quantity measured at the Redelivery Point by the Company's unaccounted-for gas ("UFG"). An imbalance exists when actual receipts adjusted for unaccounted-for gas are either greater or less than actual deliveries. The term "day" or "daily" shall have the same meaning as established by the supplier that makes Customer's gas available to the Company at the Delivery Point.
- H. "Index" means the monthly value determined based upon the published price for the Texas, Oklahoma region reported in the table "Prices of Spot Gas Delivered to Panhandle Eastern Pipe Line Company" ("PEPLC") in the first issue of "Inside F.E.R.C.'s Gas Market Report" for the month in which deliveries are made. In the event this publication ceases to exist as a convenient reference, the value shall be determined based upon accepted industry practice as applied to the determination of prices for first of the month spot purchases from the same region and delivered to PEPLC.
- I. "Interruptible Service" means the quality of service provided under the terms and conditions of this schedule with the Company providing service only when available each day based upon the reasonable judgment of the Company. Whenever the Company decides it is desirable for operational, gas supply, capacity, safety, or economic considerations, the Company may discontinue service under this schedule provided that the Company shall attempt to provide verbal notice of such discontinuation. The Company's failure to provide notice under this schedule and its failure to provide notice prior to discontinuance of service shall not give rise to any claim, cause of action, or right in the Customer.
- J. "Month" means calendar month or the period of approximately one month in length based on the Customer's billing cycle as established by the Company.
- K. "Nomination" means the quantity of gas which the Customer will have delivered to the Delivery Point for redelivery by the Company for the relevant period. It is understood that the ultimate nomination each month must take into account the

Company's allowance for UFG and any similar reductions made by other transporters.

- L. "Primary Firm" means the delivery of natural gas by a Customer or Customer Group to a Delivery Point between the Company and the interstate pipeline supplying such natural gas, under a firm transportation agreement that specifies the Company as the primary receipt and Delivery Point.
- M. "Redelivery Point" means the location where gas is metered for delivery to the Customer's premises for billing purposes. In the case of a Customer Group, the Redelivery Point shall be the billing meter for each member of the Customer Group.
- N. "Single Location" means a facility located on contiguous property separated only by a roadway, railway, or waterway.
- O. "Transportation Service First Block Rate" means the volumetric rate stated in the Transportation Service rate schedule that applies to the first 10,000 Ccf of gas supplied under this rate schedule.

APPLICABILITY

Transportation service pursuant to this schedule consists of delivery of Customer- or Customer Group-owned or supplied gas volumes injected by or on behalf of the Customer or Customer Group into the Company's facilities for redelivery by the Company. The Company provides no assurance of continued delivery of gas in the event of interruption of the Customer's or Customer Group's supply. Subject to capacity constraints, transportation service under this schedule is available to the Company's Customers and Customer Groups who: (1) enter into a transportation service agreement; (2) have purchased or otherwise arranged for a supply of natural gas of acceptable quality on a Primary Firm basis; (3) have made arrangements to establish metering or other monitoring equipment which may be reasonably necessary to permit the Company to satisfy the Customer's service needs as well as the needs of the Company's other customers; and (4) use in excess of fifty thousand (50,000) Ccf per year. For purposes of the fourth requirement, if the Customer has multiple meters at a Single Location, the usage across all meters located on the Single Location may be totaled to satisfy the fifty thousand (50,000) Ccf requirement. The Customer or Customer Group must qualify for

transportation service under the P.U.C.O. Gas Transportation Program Guidelines, must have requested that the Company transport such gas, and have provided for the delivery of such gas to a point on the Company's existing system which is acceptable to the Company for redelivery at a point on the Company's system which is acceptable to Company. The Company reserves the right to decline requests to provide service and discontinue service whenever rendering such service would be detrimental to the operation of its system. Notwithstanding this tariff offering, the Company may continue to enter into transportation service arrangements pursuant to Section 4905.31, Revised Code, when, in its judgment, the circumstances warrant a specific arrangement to address the nature of the service to be provided. Nothing in this schedule shall be understood to indicate that the Company shall not provide transportation service in accordance with ordinances enacted by municipalities provided such ordinances are accepted by the Company. The different types of transportation service are as follows:

Firm Service. The Company shall allocate and reserve pipeline capacity of the Company's facilities on behalf of the Customer for redelivery of the Customer's supply for consumption by the Customer.

Interruptible Service. The Company shall accept the Customer's supply for redelivery to the Customer based on the expected or actual available capacity of the Company's facilities. Interruptible capacity shall be determined after considering all capacity commitments relative to firm transportation.

TERM

Customers that elect to request transportation service will be required to execute a written service agreement prior to the commencement of any service. Unless otherwise agreed, service agreements shall provide for a primary term of three (3) years, continuing thereafter on a year-to-year basis, subject to cancellation by the Company or the Customer on 180 days' written notice or as otherwise agreed by the Company.

CAPACITY

Where the Company has agreed to provide the Customer with Firm Service requested by the Customer, service agreements shall specify the Company's pipeline capacity allocated to and reserved on behalf of the Customer for redelivery of the Customer's supply, recognizing the Company's UFG. The Company's obligation to accept the

Customer's supply for redelivery for the Customer's consumption of all volumes in excess of the Customer's firm capacity shall be best efforts.

UNACCOUNTED-FOR GAS ("UFG")

Unless otherwise agreed, the Customer shall have the right to retain, pursuant to this schedule, 100% of the gas delivered to the Company, less the average system-wide UFG percentage.

TRANSPORTATION RATES

The rates and charges for transportation services will be as follows:

Base Rates. Firm and interruptible service base rates shall not exceed the amounts specified below as adjusted to reflect the effect of all riders and other applicable charges. For Customers electing transportation service on and after December 31, 1996, the base rates may be adjusted by the Company to permit the Company to recover the Customer's or the Customer Group's appropriate share of unavoidable gas supply-related costs incurred by the Company to meet the requirements of the Customer or the Customer Group as those requirements would otherwise exist but for the election. The Company shall attempt to reduce and eliminate such unavoidable costs provided that such efforts do not place its other customers at an economic or service disadvantage. Base rates, at the Redelivery Point, for service before adjustment for unavoidable gas supply-related costs and applicable riders are as follows:

Customer Charge: \$9.08 per Redelivery Point per month
For the first 10,000 Ccf per month \$0.15443 per Ccf per month
For all Ccf over 10,000 per month \$0.09518 per Ccf per month

Riders. The base rates shall be subject to the following riders: Gross Receipts Excise Tax Rider (Sheet No. 11); Percentage of Income Payment Plan Rider (Sheet No. 12); Uncollectible Expense Rider (Sheet No. 13); and GIS Rider (Sheet No. 15). Service under this rate schedule is also subject to the Rules and Regulations in this tariff (Sheet Nos. 3 to 8).

IMBALANCES

The Customer's daily gas consumption at the Redelivery Point shall equal the daily volume of gas the Customer delivers to the Company at the Delivery Point (subject to the adjustment for unaccounted-for gas) plus or minus five percent (5%). For each Ccf of positive or negative imbalance in excess of five percent (5%) each day (excess imbalance), and unless otherwise agreed, the Customer shall pay to the Company an imbalance fee as follows:

- A. If a negative excess imbalance exists, the Customer shall be obligated to pay to the Company a sum (in addition to all other charges specified herein) equal to the higher of: (1) the total amount of the negative imbalance multiplied by the Transportation Service First Block Rate and its successors on file and approved by the Commission, including the applicable charge for the cost of purchased gas, or (2) the highest penalty amount incurred by the Company as a result of or in connection with such imbalance pursuant to an interstate pipeline tariff multiplied by the imbalance quantity. This additional charge does not entitle the Customer to rely upon the Company to secure a supply of gas or provide standby or partial service but merely represents a means for eliminating the imbalance condition to the extent the Company has gas available to it without imposing additional cost on other Customers.

- B. If a positive excess imbalance (actual daily volume of the Customer's gas delivered to the Company for redelivery to the Customer adjusted for unaccounted-for gas more than five percent (5%) greater than actual gas consumption), the Company shall eliminate the imbalance by purchasing the excess imbalance according to the following schedule:

Percentage Imbalance Level	Sales Price
0-5	No Sale
> 5-10	.9 x index

TITLE TO GAS

Any Customer taking transportation service pursuant to this schedule warrants that it has title to the gas delivered to the Company free and clear of all claims and covenants and agrees to indemnify and hold harmless the Company from all suits, actions, debts, accounts, damages, costs, losses, and expenses arising from or attributable to the adverse claims of any and all other persons or parties to such gas.

BEST EFFORTS MONTHLY BALANCING SERVICE

Monthly balancing service may be selected by the Customer and shall be a required service when the Customer causes a positive or negative excess imbalance to exist. Balancing service does not relieve the Customer of the responsibility to avoid an imbalance condition. Unless otherwise agreed, monthly balancing service is a "best efforts" service which involves the Company's use of storage capacity and capabilities to hold, on a best efforts basis, excess daily deliveries of the Customer's gas for use by the Customer to meet balancing requirements. Additionally, the ability of the Company to use such storage capacity and capabilities to provide monthly balancing services on a best efforts basis is dependent on the performance of third parties and not subject to the Company's control.

The rate for best efforts monthly balancing service shall be \$0.00381 per Ccf transported per month. Payment of the applicable charges for monthly balancing service will permit the Customer to balance consumption with deliveries on a monthly basis provided that the Customer's monthly imbalance shall not exceed five percent (5%) of the Customer's consumption for the same month. In the event that the monthly imbalance is in excess of five percent (5%), the Customer shall eliminate the excess imbalance in the subsequent month. For each Ccf of positive or negative imbalance in excess of five percent (5%) each month (excess imbalance), the Customer shall pay to the Company an imbalance fee as follows:

- A. If a negative excess imbalance exists, the Customer shall be obligated to pay to the Company a sum (in addition to all other charges specified herein) equal to the higher of: (1) the total amount

of the negative imbalance multiplied by the rates and charges in the Transportation Service First Block Rate and its successors on file and approved by the Commission, including the applicable charge for the cost of purchased gas, or (2) the highest penalty amount incurred by the Company as a result of or in connection with such imbalance pursuant to an interstate pipeline tariff multiplied by the imbalance quantity. This additional charge does not entitle the Customer to rely upon the Company to secure a supply of gas or provide standby or partial service but merely represents a means of eliminating the imbalance condition to the extent the Company has gas available to it without imposing additional cost on other Customers.

- B. If a positive excess imbalance (actual monthly volume of the Customer's gas delivered to the Company for redelivery to the Customer adjusted for unaccounted-for gas more than five percent (5%) greater than actual gas consumption) is not eliminated in the month following its creation, the Company shall eliminate the imbalance by purchasing the excess imbalance according to the following schedule:

Percentage Imbalance Level	Sales Price
> 0-5	No Sale
> 5-10	.9 x index
> 10-20	.7 x index
> 20	.5 x index

In addition to the other rates and charges specified herein, the Customer shall reimburse the Company for all costs incurred by the Company, including penalties or overrun charges payable to pipelines, as a result of variations in the amount of gas consumed by the Customer at the Redelivery Point and the amount of gas the Customer delivers to the Company at the Delivery Point. In addition to the charges specified herein, the Company shall have the right (as stated in the General Terms and Conditions specified below) to terminate service as a result of the Customer's failure to satisfy the Customer's balancing obligations. Nothing in this schedule shall be understood to limit the Company's right to

Tariff for Gas Service

terminate transportation service under this schedule as a result of the Customer's failure to satisfy the Customer's balancing obligations.

RECORD KEEPING AND METER READING

The Customer shall provide the Company such daily meter reading information that the Company shall reasonably request for purposes of administering the Customer's transportation service. It is understood that the Company shall be entitled to rely upon the Customer's records and meter readings for all such purposes.

QUALITY

The gas made available to the Company by the Customer for redelivery shall be of a quality equal to or better than the quality specifications contained in the tariffs or contracts governing the Company's purchase of gas from its interstate pipeline or other suppliers. It is understood that the Company shall have no obligation to accept volumes made available by the Customer in the event gas does not meet these quality specifications.

GENERAL TERMS AND CONDITIONS

- A. Services provided under this schedule are subject to all Federal, State of Ohio and local laws and to the orders, rules and regulations of any federal, State or local agencies having jurisdiction thereof.
- B. The Company shall invoice the Customer on a monthly basis and all invoices shall be due and payable within fifteen (15) days of the date the invoice is postmarked. All invoices not paid by the due date are subject to the Company's Late Payment Charge (Sheet No. 5). In the event the Customer supplies the Company with a check or other instrument which is supported by insufficient funds, the Customer shall also be assessed the Company's Bad Check Charge (Sheet No. 5).
- C. The Company, at its sole election, may terminate service under this schedule in the event the Customer fails to cause its gas supply to be made available to the Company at the Delivery Point to match the gas supply consumed at the Redelivery Point. The imbalance charges specified herein shall not be construed

as the Company's exclusive remedy in the event that the Customer fails to fulfill its balancing obligations. In addition, nothing herein shall preclude the Company from waiving an imbalance rate or charge provided the Customer has undertaken reasonable efforts to eliminate the imbalance condition, the frequency and magnitude of the imbalance condition does not, in the Company's judgment, indicate the Customer is utilizing the imbalance to obtain an economic advantage related to the cost of gas or transportation and related services or the imbalance condition does not disadvantage other customers or the Company.

- D. No waiver by the Company or the Customer of one or more defaults by the other of the provisions of service under this schedule shall be construed as a waiver of any other or further defaults, whether of a like or of a different character.
- E. The Company does not hereby assume the risk of and shall not be responsible for any injury or damage that occurs as a result of the failure of a Customer's gas supply to reach the Delivery Point or as a result of acts of God, *force majeure* events, emergencies, riots, strikes, insurrections or the acts of third parties, regulators or government that prevent the Company from providing transportation service to the Customer.
- F. The Company may offer transportation service at rates that are downwardly flexible from the base rates and best efforts balancing service rate specified above. The rates may be flexed downward to a rate or charge that recovers all variable costs of service and provides some contribution to the Company's fixed costs of providing service. Reduced rates may be determined based on competitive services available to the Customer, the quality (firm or interruptible) of service, the Company's need to achieve load preservation, or the economic recovery of costs incurred by the Company and shall be subject to: (1) the requirements of Section 4905.31, Revised Code, as such requirements may apply based on the determinations of the Commission; or (2) the requirements of Article XVIII, Section 5 of the Ohio Constitution and the lawful acts of units of local government.

GEOGRAPHICAL INFORMATION SYSTEM COST RECOVERY (“GIS”) RIDER

In addition to all other rates and charges applicable to service provided under the General Service rate schedule (Sheet No. 9) or the Transportation Service rate schedule (Sheet No. 10), Customers receiving service pursuant to said rates shall pay an additional amount per month. The monthly charge shall be \$0.86 per account for 24 months, beginning with the first billing cycle following the approval of the application in Case No. 19-1354-GA-ALT. The charge shall continue for one additional month to collect or refund any under or overcollection of the amount authorized for recovery, as approved by the Commission. Thereafter, the charge will be set at 0. The GIS rider may also include Customer refunds if the Commission or Supreme Court of Ohio determines, as a result of an audit, that the GIS Rider was unlawful or unreasonable or included imprudent amounts.

GENERAL SERVICE

To any residential, commercial or industrial customer for general service, manufacturing, processing and/or building heating and/or cooling at any one location subject to any governmental restrictions which may affect the Company's ability to provide new or additional gas service. Service under this rate schedule is subject to the Rules and Regulations in this tariff (Sheet Nos. 3 to 8)

DISTRIBUTION RATE

The distribution rate under this schedule includes the base rates and rider rates provided or referenced below.

BASE RATE

Customer Charge	\$9.08 per month
For the first 10,000 Ccf used per month	\$0.15443 per Ccf
For all Ccf used over 10,000 Ccf per month	\$0.09518 per Ccf

RIDERS

Service under this rate schedule is subject to the following riders: Gross Receipts Excise Tax Rider (Sheet No. 11); Percentage of Income Payment Plan Rider (Sheet No. 12); and Uncollectible Expense Rider (Sheet No. 13).

RECOVERY OF INCLUDABLE COST OF GAS SUPPLIES

Pursuant to Chapter 4901:1-14, Ohio Administrative Code, and by the terms of this tariff, the total rate charges under this schedule consists of the distribution rate plus the appropriate gas cost recovery rate specified in the Uniform Purchased Gas Adjustment Rider (Sheet No. 14).

Issued: February 21, 2018

Effective: March 1, 2018

TRANSPORTATION SERVICE

DEFINITIONS

In addition to the definitions contained in Sheet No. 2, the following terms shall have the meanings indicated below for purposes of Transportation Service (Sheet No. 10), and any defined term contained in these definitions supersedes a definition provided in the definitions contained in Sheet No. 2:

- A. "Ccf" means one hundred (100) cubic feet measured at a pressure of fourteen and six tenths (14.6) pounds per square inch with correction for super compressibility and at a temperature of sixty degrees (60°) Fahrenheit.
- B. "Customer" means an individual, governmental or corporate entity taking transportation service hereunder where the gas is delivered to the Company for the Customer using gas supply allocation, upstream capacity allocation, allocation of responsibility for existing gas supply and related services previously used by the Company to provide bundled or transportation service to the Customer and billing methods developed for such purpose.
- C. "Customer Group" means two or more Customers who combine their gas requirements and purchase gas from a designated pool or program or supplier(s) where the gas is delivered to the Company for the Customer Group using gas supply allocation, upstream capacity allocation, allocation of responsibility for existing gas supply, and related services previously used by the Company to provide bundled or transportation service to any or all members of the Customer Group and billing methods developed for such purpose.
- D. "Delivery Point" means the location at which the Customer first delivers its gas to the Company.
- E. "Firm Service" means the quality of service provided under the terms and conditions of the schedule with the Company providing service absent a *force majeure* condition.
- F. "Gas" means the gas that is redelivered to Customer's meter at the Redelivery Point, and made available to the Company under this schedule.

Issued: February 21, 2018

Effective: March 1, 2018

OHIO GAS COMPANY

Original Sheet No. 10

Page 2 of 10

P.U.C.O. No. 2
Tariff for Gas Service

- G. "Imbalance" means the daily difference between the quantity delivered by the Customer to the Company at the Delivery Point and the quantity consumed by the Customer as measured at the Redelivery Point. It is understood that the quantity received by the Company at the Delivery Point must exceed the quantity measured at the Redelivery Point by the Company's unaccounted-for gas ("UFG"). An imbalance exists when actual receipts adjusted for unaccounted-for gas are either greater or less than actual deliveries. The term "day" or "daily" shall have the same meaning as established by the supplier that makes Customer's gas available to the Company at the Delivery Point.
- H. "Index" means the monthly value determined based upon the published price for the Texas, Oklahoma region reported in the table "Prices of Spot Gas Delivered to Panhandle Eastern Pipe Line Company" ("PEPLC") in the first issue of "Inside F.E.R.C.'s Gas Market Report" for the month in which deliveries are made. In the event this publication ceases to exist as a convenient reference, the value shall be determined based upon accepted industry practice as applied to the determination of prices for first of the month spot purchases from the same region and delivered to PEPLC.
- I. "Interruptible Service" means the quality of service provided under the terms and conditions of this schedule with the Company providing service only when available each day based upon the reasonable judgment of the Company. Whenever the Company decides it is desirable for operational, gas supply, capacity, safety, or economic considerations, the Company may discontinue service under this schedule provided that the Company shall attempt to provide verbal notice of such discontinuation. The Company's failure to provide notice under this schedule and its failure to provide notice prior to discontinuance of service shall not give rise to any claim, cause of action, or right in the Customer.
- J. "Month" means calendar month or the period of approximately one month in length based on the Customer's billing cycle as established by the Company.
- K. "Nomination" means the quantity of gas which the Customer will have delivered to the Delivery Point for redelivery by the Company for the relevant period. It is understood that the ultimate nomination each month must take into account the Company's allowance for UFG and any similar reductions made by other transporters.

P.U.C.O. No. 2
Tariff for Gas Service

- L. “Primary Firm” means the delivery of natural gas by a Customer or Customer Group to a Delivery Point between the Company and the interstate pipeline supplying such natural gas, under a firm transportation agreement that specifies the Company as the primary receipt and Delivery Point.
- M. “Redelivery Point” means the location where gas is metered for delivery to the Customer’s premises for billing purposes. In the case of a Customer Group, the Redelivery Point shall be the billing meter for each member of the Customer Group.
- N. “Single Location” means a facility located on contiguous property separated only by a roadway, railway, or waterway.
- O. “Transportation Service First Block Rate” means the volumetric rate stated in the Transportation Service rate schedule that applies to the first 10,000 Ccf of gas supplied under this rate schedule.

APPLICABILITY

Transportation service pursuant to this schedule consists of delivery of Customer- or Customer Group-owned or supplied gas volumes injected by or on behalf of the Customer or Customer Group into the Company’s facilities for redelivery by the Company. The Company provides no assurance of continued delivery of gas in the event of interruption of the Customer’s or Customer Group’s supply. Subject to capacity constraints, transportation service under this schedule is available to the Company’s Customers and Customer Groups who: (1) enter into a transportation service agreement; (2) have purchased or otherwise arranged for a supply of natural gas of acceptable quality on a Primary Firm basis; (3) have made arrangements to establish metering or other monitoring equipment which may be reasonably necessary to permit the Company to satisfy the Customer’s service needs as well as the needs of the Company’s other customers; and (4) use in excess of fifty thousand (50,000) Ccf per year. For purposes of the fourth requirement, if the Customer has multiple meters at a Single Location, the usage across all meters located on the Single Location may be totaled to satisfy the fifty thousand (50,000) Ccf requirement. The Customer or Customer Group must qualify for transportation service under the P.U.C.O. Gas Transportation Program Guidelines, must have requested that the Company transport such gas, and have provided for the delivery of such gas to a point on the Company’s existing system which is acceptable to the Company for redelivery at a point on the Company’s system which is acceptable to Company. The Company reserves the right

to decline requests to provide service and discontinue service whenever rendering such service would be detrimental to the operation of its system. Notwithstanding this tariff offering, the Company may continue to enter into transportation service arrangements pursuant to Section 4905.31, Revised Code, when, in its judgment, the circumstances warrant a specific arrangement to address the nature of the service to be provided. Nothing in this schedule shall be understood to indicate that the Company shall not provide transportation service in accordance with ordinances enacted by municipalities provided such ordinances are accepted by the Company. The different types of transportation service are as follows:

Firm Service. The Company shall allocate and reserve pipeline capacity of the Company's facilities on behalf of the Customer for redelivery of the Customer's supply for consumption by the Customer.

Interruptible Service. The Company shall accept the Customer's supply for redelivery to the Customer based on the expected or actual available capacity of the Company's facilities. Interruptible capacity shall be determined after considering all capacity commitments relative to firm transportation.

TERM

Customers that elect to request transportation service will be required to execute a written service agreement prior to the commencement of any service. Unless otherwise agreed, service agreements shall provide for a primary term of three (3) years, continuing thereafter on a year-to-year basis, subject to cancellation by the Company or the Customer on 180 days' written notice or as otherwise agreed by the Company.

CAPACITY

Where the Company has agreed to provide the Customer with Firm Service requested by the Customer, service agreements shall specify the Company's pipeline capacity allocated to and reserved on behalf of the Customer for redelivery of the Customer's supply, recognizing the Company's UFG. The Company's obligation to accept the Customer's supply for redelivery for the Customer's consumption of all volumes in excess of the Customer's firm capacity shall be best efforts.

UNACCOUNTED-FOR GAS (“UFG”)

Unless otherwise agreed, the Customer shall have the right to retain, pursuant to this schedule, 100% of the gas delivered to the Company, less the average system-wide UFG percentage.

TRANSPORTATION RATES

The rates and charges for transportation services will be as follows:

Base Rates. Firm and interruptible service base rates shall not exceed the amounts specified below as adjusted to reflect the effect of all riders and other applicable charges. For Customers electing transportation service on and after December 31, 1996, the base rates may be adjusted by the Company to permit the Company to recover the Customer’s or the Customer Group’s appropriate share of unavoidable gas supply-related costs incurred by the Company to meet the requirements of the Customer or the Customer Group as those requirements would otherwise exist but for the election. The Company shall attempt to reduce and eliminate such unavoidable costs provided that such efforts do not place its other customers at an economic or service disadvantage. Base rates, at the Redelivery Point, for service before adjustment for unavoidable gas supply-related costs and applicable riders are as follows:

Customer Charge:	\$9.08 per Redelivery Point per month
For the first 10,000 Ccf per month	\$0.15443 per Ccf per month
For all Ccf over 10,000 per month	\$0.09518 per Ccf per month

Riders. The base rates shall be subject to the following riders: Gross Receipts Excise Tax Rider (Sheet No. 11); Percentage of Income Payment Plan Rider (Sheet No. 12); and Uncollectible Expense Rider (Sheet No. 13). Service under this rate schedule is also subject to the Rules and Regulations in this tariff (Sheet Nos. 3 to 8).

IMBALANCES

The Customer’s daily gas consumption at the Redelivery Point shall equal the daily volume of gas the Customer delivers to the Company at the Delivery Point (subject to the adjustment for unaccounted-for gas) plus or minus five percent (5%). For each Ccf of positive or negative imbalance in excess of five percent (5%) each day (excess

imbalance), and unless otherwise agreed, the Customer shall pay to the Company an imbalance fee as follows:

- A. If a negative excess imbalance exists, the Customer shall be obligated to pay to the Company a sum (in addition to all other charges specified herein) equal to the higher of: (1) the total amount of the negative imbalance multiplied by the Transportation Service First Block Rate and its successors on file and approved by the Commission, including the applicable charge for the cost of purchased gas, or (2) the highest penalty amount incurred by the Company as a result of or in connection with such imbalance pursuant to an interstate pipeline tariff multiplied by the imbalance quantity. This additional charge does not entitle the Customer to rely upon the Company to secure a supply of gas or provide standby or partial service but merely represents a means for eliminating the imbalance condition to the extent the Company has gas available to it without imposing additional cost on other Customers.

- B. If a positive excess imbalance (actual daily volume of the Customer's gas delivered to the Company for redelivery to the Customer adjusted for unaccounted-for gas more than five percent (5%) greater than actual gas consumption), the Company shall eliminate the imbalance by purchasing the excess imbalance according to the following schedule:

Percentage Imbalance Level	Sales Price
0-5	No Sale
> 5-10	.9 x index
> 10-20	.7 x index
> 20	.5 x index

TITLE TO GAS

Any Customer taking transportation service pursuant to this schedule warrants that it has title to the gas delivered to the Company free and clear of all claims and covenants and agrees to indemnify and hold harmless the Company from all suits, actions, debts,

accounts, damages, costs, losses, and expenses arising from or attributable to the adverse claims of any and all other persons or parties to such gas.

BEST EFFORTS MONTHLY BALANCING SERVICE

Monthly balancing service may be selected by the Customer and shall be a required service when the Customer causes a positive or negative excess imbalance to exist. Balancing service does not relieve the Customer of the responsibility to avoid an imbalance condition. Unless otherwise agreed, monthly balancing service is a “best efforts” service which involves the Company’s use of storage capacity and capabilities to hold, on a best efforts basis, excess daily deliveries of the Customer’s gas for use by the Customer to meet balancing requirements. Additionally, the ability of the Company to use such storage capacity and capabilities to provide monthly balancing services on a best efforts basis is dependent on the performance of third parties and not subject to the Company’s control.

The rate for best efforts monthly balancing service shall be \$0.00381 per Ccf transported per month. Payment of the applicable charges for monthly balancing service will permit the Customer to balance consumption with deliveries on a monthly basis provided that the Customer’s monthly imbalance shall not exceed five percent (5%) of the Customer’s consumption for the same month. In the event that the monthly imbalance is in excess of five percent (5%), the Customer shall eliminate the excess imbalance in the subsequent month. For each Ccf of positive or negative imbalance in excess of five percent (5%) each month (excess imbalance), the Customer shall pay to the Company an imbalance fee as follows:

- A. If a negative excess imbalance exists, the Customer shall be obligated to pay to the Company a sum (in addition to all other charges specified herein) equal to the higher of: (1) the total amount of the negative imbalance multiplied by the rates and charges in the Transportation Service First Block Rate and its successors on file and approved by the Commission, including the applicable charge for the cost of purchased gas, or (2) the highest penalty amount incurred by the Company as a result of or in connection with such imbalance pursuant to an interstate pipeline tariff multiplied by the imbalance quantity. This additional charge does not entitle the Customer to rely upon the Company to secure a supply of gas or provide standby or partial service but merely represents a means of eliminating the imbalance condition to the

extent the Company has gas available to it without imposing additional cost on other Customers.

- B. If a positive excess imbalance (actual monthly volume of the Customer's gas delivered to the Company for redelivery to the Customer adjusted for unaccounted-for gas more than five percent (5%) greater than actual gas consumption) is not eliminated in the month following its creation, the Company shall eliminate the imbalance by purchasing the excess imbalance according to the following schedule:

Percentage Imbalance Level	Sales Price
> 0-5	No Sale
> 5-10	.9 x index
> 10-20	.7 x index
> 20	.5 x index

In addition to the other rates and charges specified herein, the Customer shall reimburse the Company for all costs incurred by the Company, including penalties or overrun charges payable to pipelines, as a result of variations in the amount of gas consumed by the Customer at the Redelivery Point and the amount of gas the Customer delivers to the Company at the Delivery Point. In addition to the charges specified herein, the Company shall have the right (as stated in the General Terms and Conditions specified below) to terminate service as a result of the Customer's failure to satisfy the Customer's balancing obligations. Nothing in this schedule shall be understood to limit the Company's right to terminate transportation service under this schedule as a result of the Customer's failure to satisfy the Customer's balancing obligations.

RECORD KEEPING AND METER READING

The Customer shall provide the Company such daily meter reading information that the Company shall reasonably request for purposes of administering the Customer's transportation service. It is understood that the Company shall be entitled to rely upon the Customer's records and meter readings for all such purposes.

QUALITY

The gas made available to the Company by the Customer for redelivery shall be of a quality equal to or better than the quality specifications contained in the tariffs or contracts governing the Company's purchase of gas from its interstate pipeline or other suppliers. It is understood that the Company shall have no obligation to accept volumes made available by the Customer in the event gas does not meet these quality specifications.

GENERAL TERMS AND CONDITIONS

- A. Services provided under this schedule are subject to all Federal, State of Ohio and local laws and to the orders, rules and regulations of any federal, State or local agencies having jurisdiction thereof.
- B. The Company shall invoice the Customer on a monthly basis and all invoices shall be due and payable within fifteen (15) days of the date the invoice is postmarked. All invoices not paid by the due date are subject to the Company's Late Payment Charge (Sheet No. 5). In the event the Customer supplies the Company with a check or other instrument which is supported by insufficient funds, the Customer shall also be assessed the Company's Bad Check Charge (Sheet No. 5).
- C. The Company, at its sole election, may terminate service under this schedule in the event the Customer fails to cause its gas supply to be made available to the Company at the Delivery Point to match the gas supply consumed at the Redelivery Point. The imbalance charges specified herein shall not be construed as the Company's exclusive remedy in the event that the Customer fails to fulfill its balancing obligations. In addition, nothing herein shall preclude the Company from waiving an imbalance rate or charge provided the Customer has undertaken reasonable efforts to eliminate the imbalance condition, the frequency and magnitude of the imbalance condition does not, in the Company's judgment, indicate the Customer is utilizing the imbalance to obtain an economic advantage related to the cost of gas or transportation and related services or the imbalance condition does not disadvantage other customers or the Company.
- D. No waiver by the Company or the Customer of one or more defaults by the other of the provisions of service under this schedule shall be construed as a waiver of any other or further defaults, whether of a like or of a different character.

- E. The Company does not hereby assume the risk of and shall not be responsible for any injury or damage that occurs as a result of the failure of a Customer's gas supply to reach the Delivery Point or as a result of acts of God, *force majeure* events, emergencies, riots, strikes, insurrections or the acts of third parties, regulators or government that prevent the Company from providing transportation service to the Customer.
- F. The Company may offer transportation service at rates that are downwardly flexible from the base rates and best efforts balancing service rate specified above. The rates may be flexed downward to a rate or charge that recovers all variable costs of service and provides some contribution to the Company's fixed costs of providing service. Reduced rates may be determined based on competitive services available to the Customer, the quality (firm or interruptible) of service, the Company's need to achieve load preservation, or the economic recovery of costs incurred by the Company and shall be subject to: (1) the requirements of Section 4905.31, Revised Code, as such requirements may apply based on the determinations of the Commission; or (2) the requirements of Article XVIII, Section 5 of the Ohio Constitution and the lawful acts of units of local government.

Tariff for Gas Service

GENERAL SERVICE

To any residential, commercial or industrial customer for general service, manufacturing, processing and/or building heating and/or cooling at any one location subject to any governmental restrictions which may affect the Company's ability to provide new or additional gas service. Service under this rate schedule is subject to the Rules and Regulations in this tariff (Sheet Nos. 3 to 8)

DISTRIBUTION RATE

The distribution rate under this schedule includes the base rates and rider rates provided or referenced below.

BASE RATE

Customer Charge	\$9.08 per month
For the first 10,000 Ccf used per month	\$0.15443 per Ccf
For all Ccf used over 10,000 Ccf per month	\$0.09518 per Ccf

RIDERS

Service under this rate schedule is subject to the following riders: Gross Receipts Excise Tax Rider (Sheet No. 11); Percentage of Income Payment Plan Rider (Sheet No. 12); ~~and~~ Uncollectible Expense Rider (Sheet No. 13); and GIS Rider (Sheet No. 15).

RECOVERY OF INCLUDABLE COST OF GAS SUPPLIES

Pursuant to Chapter 4901:1-14, Ohio Administrative Code, and by the terms of this tariff, the total rate charges under this schedule consists of the distribution rate plus the appropriate gas cost recovery rate specified in the Uniform Purchased Gas Adjustment Rider (Sheet No. 14).

Issued: ~~February 21, 2018~~ _____, 2019 Effective: ~~March~~ _____ 1, ~~2018~~ 2019

Tariff for Gas Service

TRANSPORTATION SERVICE

DEFINITIONS

In addition to the definitions contained in Sheet No. 2, the following terms shall have the meanings indicated below for purposes of Transportation Service (Sheet No. 10), and any defined term contained in these definitions supersedes a definition provided in the definitions contained in Sheet No. 2:

- A. "Ccf" means one hundred (100) cubic feet measured at a pressure of fourteen and six tenths (14.6) pounds per square inch with correction for super compressibility and at a temperature of sixty degrees (60°) Fahrenheit.
- B. "Customer" means an individual, governmental or corporate entity taking transportation service hereunder where the gas is delivered to the Company for the Customer using gas supply allocation, upstream capacity allocation, allocation of responsibility for existing gas supply and related services previously used by the Company to provide bundled or transportation service to the Customer and billing methods developed for such purpose.
- C. "Customer Group" means two or more Customers who combine their gas requirements and purchase gas from a designated pool or program or supplier(s) where the gas is delivered to the Company for the Customer Group using gas supply allocation, upstream capacity allocation, allocation of responsibility for existing gas supply, and related services previously used by the Company to provide bundled or transportation service to any or all members of the Customer Group and billing methods developed for such purpose.
- D. "Delivery Point" means the location at which the Customer first delivers its gas to the Company.
- E. "Firm Service" means the quality of service provided under the terms and conditions of the schedule with the Company providing service absent a *force majeure* condition.
- F. "Gas" means the gas that is redelivered to Customer's meter at the Redelivery Point, and made available to the Company under this schedule.

P.U.C.O. No. 2
Tariff for Gas Service

- G. "Imbalance" means the daily difference between the quantity delivered by the Customer to the Company at the Delivery Point and the quantity consumed by the Customer as measured at the Redelivery Point. It is understood that the quantity received by the Company at the Delivery Point must exceed the quantity measured at the Redelivery Point by the Company's unaccounted-for gas ("UFG"). An imbalance exists when actual receipts adjusted for unaccounted-for gas are either greater or less than actual deliveries. The term "day" or "daily" shall have the same meaning as established by the supplier that makes Customer's gas available to the Company at the Delivery Point.
- H. "Index" means the monthly value determined based upon the published price for the Texas, Oklahoma region reported in the table "Prices of Spot Gas Delivered to Panhandle Eastern Pipe Line Company" ("PEPLC") in the first issue of "Inside F.E.R.C.'s Gas Market Report" for the month in which deliveries are made. In the event this publication ceases to exist as a convenient reference, the value shall be determined based upon accepted industry practice as applied to the determination of prices for first of the month spot purchases from the same region and delivered to PEPLC.
- I. "Interruptible Service" means the quality of service provided under the terms and conditions of this schedule with the Company providing service only when available each day based upon the reasonable judgment of the Company. Whenever the Company decides it is desirable for operational, gas supply, capacity, safety, or economic considerations, the Company may discontinue service under this schedule provided that the Company shall attempt to provide verbal notice of such discontinuation. The Company's failure to provide notice under this schedule and its failure to provide notice prior to discontinuance of service shall not give rise to any claim, cause of action, or right in the Customer.
- J. "Month" means calendar month or the period of approximately one month in length based on the Customer's billing cycle as established by the Company.
- K. "Nomination" means the quantity of gas which the Customer will have delivered to the Delivery Point for redelivery by the Company for the relevant period. It is understood that the ultimate nomination each month must take into account the

Tariff for Gas Service

Company's allowance for UFG and any similar reductions made by other transporters.

- L. "Primary Firm" means the delivery of natural gas by a Customer or Customer Group to a Delivery Point between the Company and the interstate pipeline supplying such natural gas, under a firm transportation agreement that specifies the Company as the primary receipt and Delivery Point.
- M. "Redelivery Point" means the location where gas is metered for delivery to the Customer's premises for billing purposes. In the case of a Customer Group, the Redelivery Point shall be the billing meter for each member of the Customer Group.
- N. "Single Location" means a facility located on contiguous property separated only by a roadway, railway, or waterway.
- O. "Transportation Service First Block Rate" means the volumetric rate stated in the Transportation Service rate schedule that applies to the first 10,000 Ccf of gas supplied under this rate schedule.

APPLICABILITY

Transportation service pursuant to this schedule consists of delivery of Customer- or Customer Group-owned or supplied gas volumes injected by or on behalf of the Customer or Customer Group into the Company's facilities for redelivery by the Company. The Company provides no assurance of continued delivery of gas in the event of interruption of the Customer's or Customer Group's supply. Subject to capacity constraints, transportation service under this schedule is available to the Company's Customers and Customer Groups who: (1) enter into a transportation service agreement; (2) have purchased or otherwise arranged for a supply of natural gas of acceptable quality on a Primary Firm basis; (3) have made arrangements to establish metering or other monitoring equipment which may be reasonably necessary to permit the Company to satisfy the Customer's service needs as well as the needs of the Company's other customers; and (4) use in excess of fifty thousand (50,000) Ccf per year. For purposes of the fourth requirement, if the Customer has multiple meters at a Single Location, the usage across all meters located on the Single Location may be totaled to satisfy the fifty thousand (50,000) Ccf requirement. The Customer or Customer Group must qualify for

transportation service under the P.U.C.O. Gas Transportation Program Guidelines, must have requested that the Company transport such gas, and have provided for the delivery of such gas to a point on the Company's existing system which is acceptable to the Company for redelivery at a point on the Company's system which is acceptable to Company. The Company reserves the right to decline requests to provide service and discontinue service whenever rendering such service would be detrimental to the operation of its system. Notwithstanding this tariff offering, the Company may continue to enter into transportation service arrangements pursuant to Section 4905.31, Revised Code, when, in its judgment, the circumstances warrant a specific arrangement to address the nature of the service to be provided. Nothing in this schedule shall be understood to indicate that the Company shall not provide transportation service in accordance with ordinances enacted by municipalities provided such ordinances are accepted by the Company. The different types of transportation service are as follows:

Firm Service. The Company shall allocate and reserve pipeline capacity of the Company's facilities on behalf of the Customer for redelivery of the Customer's supply for consumption by the Customer.

Interruptible Service. The Company shall accept the Customer's supply for redelivery to the Customer based on the expected or actual available capacity of the Company's facilities. Interruptible capacity shall be determined after considering all capacity commitments relative to firm transportation.

TERM

Customers that elect to request transportation service will be required to execute a written service agreement prior to the commencement of any service. Unless otherwise agreed, service agreements shall provide for a primary term of three (3) years, continuing thereafter on a year-to-year basis, subject to cancellation by the Company or the Customer on 180 days' written notice or as otherwise agreed by the Company.

CAPACITY

Where the Company has agreed to provide the Customer with Firm Service requested by the Customer, service agreements shall specify the Company's pipeline capacity allocated to and reserved on behalf of the Customer for redelivery of the Customer's supply, recognizing the Company's UFG. The Company's obligation to accept the

Customer's supply for redelivery for the Customer's consumption of all volumes in excess of the Customer's firm capacity shall be best efforts.

UNACCOUNTED-FOR GAS ("UFG")

Unless otherwise agreed, the Customer shall have the right to retain, pursuant to this schedule, 100% of the gas delivered to the Company, less the average system-wide UFG percentage.

TRANSPORTATION RATES

The rates and charges for transportation services will be as follows:

Base Rates. Firm and interruptible service base rates shall not exceed the amounts specified below as adjusted to reflect the effect of all riders and other applicable charges. For Customers electing transportation service on and after December 31, 1996, the base rates may be adjusted by the Company to permit the Company to recover the Customer's or the Customer Group's appropriate share of unavoidable gas supply-related costs incurred by the Company to meet the requirements of the Customer or the Customer Group as those requirements would otherwise exist but for the election. The Company shall attempt to reduce and eliminate such unavoidable costs provided that such efforts do not place its other customers at an economic or service disadvantage. Base rates, at the Redelivery Point, for service before adjustment for unavoidable gas supply-related costs and applicable riders are as follows:

Customer Charge:	\$9.08 per Redelivery Point per month
For the first 10,000 Ccf per month	\$0.15443 per Ccf per month
For all Ccf over 10,000 per month	\$0.09518 per Ccf per month

Riders. The base rates shall be subject to the following riders: Gross Receipts Excise Tax Rider (Sheet No. 11); Percentage of Income Payment Plan Rider (Sheet No. 12); ~~and~~ Uncollectible Expense Rider (Sheet No. 13); and GIS Rider (Sheet No. 15). Service under this rate schedule is also subject to the Rules and Regulations in this tariff (Sheet Nos. 3 to 8).

IMBALANCES

The Customer's daily gas consumption at the Redelivery Point shall equal the daily volume of gas the Customer delivers to the Company at the Delivery Point (subject to the adjustment for unaccounted-for gas) plus or minus five percent (5%). For each Ccf of positive or negative imbalance in excess of five percent (5%) each day (excess imbalance), and unless otherwise agreed, the Customer shall pay to the Company an imbalance fee as follows:

- A. If a negative excess imbalance exists, the Customer shall be obligated to pay to the Company a sum (in addition to all other charges specified herein) equal to the higher of: (1) the total amount of the negative imbalance multiplied by the Transportation Service First Block Rate and its successors on file and approved by the Commission, including the applicable charge for the cost of purchased gas, or (2) the highest penalty amount incurred by the Company as a result of or in connection with such imbalance pursuant to an interstate pipeline tariff multiplied by the imbalance quantity. This additional charge does not entitle the Customer to rely upon the Company to secure a supply of gas or provide standby or partial service but merely represents a means for eliminating the imbalance condition to the extent the Company has gas available to it without imposing additional cost on other Customers.

- B. If a positive excess imbalance (actual daily volume of the Customer's gas delivered to the Company for redelivery to the Customer adjusted for unaccounted-for gas more than five percent (5%) greater than actual gas consumption), the Company shall eliminate the imbalance by purchasing the excess imbalance according to the following schedule:

Percentage Imbalance Level	Sales Price
0-5	No Sale
> 5-10	.9 x index

TITLE TO GAS

Any Customer taking transportation service pursuant to this schedule warrants that it has title to the gas delivered to the Company free and clear of all claims and covenants and agrees to indemnify and hold harmless the Company from all suits, actions, debts, accounts, damages, costs, losses, and expenses arising from or attributable to the adverse claims of any and all other persons or parties to such gas.

BEST EFFORTS MONTHLY BALANCING SERVICE

Monthly balancing service may be selected by the Customer and shall be a required service when the Customer causes a positive or negative excess imbalance to exist. Balancing service does not relieve the Customer of the responsibility to avoid an imbalance condition. Unless otherwise agreed, monthly balancing service is a "best efforts" service which involves the Company's use of storage capacity and capabilities to hold, on a best efforts basis, excess daily deliveries of the Customer's gas for use by the Customer to meet balancing requirements. Additionally, the ability of the Company to use such storage capacity and capabilities to provide monthly balancing services on a best efforts basis is dependent on the performance of third parties and not subject to the Company's control.

The rate for best efforts monthly balancing service shall be \$0.00381 per Ccf transported per month. Payment of the applicable charges for monthly balancing service will permit the Customer to balance consumption with deliveries on a monthly basis provided that the Customer's monthly imbalance shall not exceed five percent (5%) of the Customer's consumption for the same month. In the event that the monthly imbalance is in excess of five percent (5%), the Customer shall eliminate the excess imbalance in the subsequent month. For each Ccf of positive or negative imbalance in excess of five percent (5%) each month (excess imbalance), the Customer shall pay to the Company an imbalance fee as follows:

- A. If a negative excess imbalance exists, the Customer shall be obligated to pay to the Company a sum (in addition to all other charges specified herein) equal to the higher of: (1) the total amount

of the negative imbalance multiplied by the rates and charges in the Transportation Service First Block Rate and its successors on file and approved by the Commission, including the applicable charge for the cost of purchased gas, or (2) the highest penalty amount incurred by the Company as a result of or in connection with such imbalance pursuant to an interstate pipeline tariff multiplied by the imbalance quantity. This additional charge does not entitle the Customer to rely upon the Company to secure a supply of gas or provide standby or partial service but merely represents a means of eliminating the imbalance condition to the extent the Company has gas available to it without imposing additional cost on other Customers.

- B. If a positive excess imbalance (actual monthly volume of the Customer's gas delivered to the Company for redelivery to the Customer adjusted for unaccounted-for gas more than five percent (5%) greater than actual gas consumption) is not eliminated in the month following its creation, the Company shall eliminate the imbalance by purchasing the excess imbalance according to the following schedule:

Percentage Imbalance Level	Sales Price
> 0-5	No Sale
> 5-10	.9 x index
> 10-20	.7 x index
> 20	.5 x index

In addition to the other rates and charges specified herein, the Customer shall reimburse the Company for all costs incurred by the Company, including penalties or overrun charges payable to pipelines, as a result of variations in the amount of gas consumed by the Customer at the Redelivery Point and the amount of gas the Customer delivers to the Company at the Delivery Point. In addition to the charges specified herein, the Company shall have the right (as stated in the General Terms and Conditions specified below) to terminate service as a result of the Customer's failure to satisfy the Customer's balancing obligations. Nothing in this schedule shall be understood to limit the Company's right to

terminate transportation service under this schedule as a result of the Customer's failure to satisfy the Customer's balancing obligations.

RECORD KEEPING AND METER READING

The Customer shall provide the Company such daily meter reading information that the Company shall reasonably request for purposes of administering the Customer's transportation service. It is understood that the Company shall be entitled to rely upon the Customer's records and meter readings for all such purposes.

QUALITY

The gas made available to the Company by the Customer for redelivery shall be of a quality equal to or better than the quality specifications contained in the tariffs or contracts governing the Company's purchase of gas from its interstate pipeline or other suppliers. It is understood that the Company shall have no obligation to accept volumes made available by the Customer in the event gas does not meet these quality specifications.

GENERAL TERMS AND CONDITIONS

- A. Services provided under this schedule are subject to all Federal, State of Ohio and local laws and to the orders, rules and regulations of any federal, State or local agencies having jurisdiction thereof.
- B. The Company shall invoice the Customer on a monthly basis and all invoices shall be due and payable within fifteen (15) days of the date the invoice is postmarked. All invoices not paid by the due date are subject to the Company's Late Payment Charge (Sheet No. 5). In the event the Customer supplies the Company with a check or other instrument which is supported by insufficient funds, the Customer shall also be assessed the Company's Bad Check Charge (Sheet No. 5).
- C. The Company, at its sole election, may terminate service under this schedule in the event the Customer fails to cause its gas supply to be made available to the Company at the Delivery Point to match the gas supply consumed at the Redelivery Point. The imbalance charges specified herein shall not be construed

as the Company's exclusive remedy in the event that the Customer fails to fulfill its balancing obligations. In addition, nothing herein shall preclude the Company from waiving an imbalance rate or charge provided the Customer has undertaken reasonable efforts to eliminate the imbalance condition, the frequency and magnitude of the imbalance condition does not, in the Company's judgment, indicate the Customer is utilizing the imbalance to obtain an economic advantage related to the cost of gas or transportation and related services or the imbalance condition does not disadvantage other customers or the Company.

- D. No waiver by the Company or the Customer of one or more defaults by the other of the provisions of service under this schedule shall be construed as a waiver of any other or further defaults, whether of a like or of a different character.
- E. The Company does not hereby assume the risk of and shall not be responsible for any injury or damage that occurs as a result of the failure of a Customer's gas supply to reach the Delivery Point or as a result of acts of God, *force majeure* events, emergencies, riots, strikes, insurrections or the acts of third parties, regulators or government that prevent the Company from providing transportation service to the Customer.
- F. The Company may offer transportation service at rates that are downwardly flexible from the base rates and best efforts balancing service rate specified above. The rates may be flexed downward to a rate or charge that recovers all variable costs of service and provides some contribution to the Company's fixed costs of providing service. Reduced rates may be determined based on competitive services available to the Customer, the quality (firm or interruptible) of service, the Company's need to achieve load preservation, or the economic recovery of costs incurred by the Company and shall be subject to: (1) the requirements of Section 4905.31, Revised Code, as such requirements may apply based on the determinations of the Commission; or (2) the requirements of Article XVIII, Section 5 of the Ohio Constitution and the lawful acts of units of local government.

GEOGRAPHICAL INFORMATION SYSTEM COST RECOVERY (“GIS”) RIDER

In addition to all other rates and charges applicable to service provided under the General Service rate schedule (Sheet No. 9) or the Transportation Service rate schedule (Sheet No. 10), Customers receiving service pursuant to said rates shall pay an additional amount per month. The monthly charge shall be \$0.86 per account for 24 months, beginning with the first billing cycle following the approval of the application in Case No. 19- -GA-ALT. The charge shall continue for one additional month to collect or refund any under or overcollection of the amount authorized for recovery, as approved by the Commission. Thereafter, the charge will be set at 0. The GIS rider may also include Customer refunds if the Commission or Supreme Court of Ohio determines, as a result of an audit, that the GIS Rider was unlawful or unreasonable or included imprudent amounts.

Adjustments to C-2 and C-2.1 Schedules

Normalized Weather

The C-2 and the C-2.1 schedules reflect six months of actuals for 2019 (January-June) and six months of estimates (July-December) for operating expenses. Operating revenues for 2019 have been adjusted to normalized weather based on thirty year average temperatures. Significantly colder than normal temperatures were experienced in the first quarter of 2019 and, through June, actual degree days were 7.08% greater than normal and Mcf sales were 5.95% greater than our budget which is based on normal weather. The operating revenue adjustment for normal weather was therefore a 4.37% decrease or \$848,537 less than six months of actuals and six months of estimates. The applicable Gross Receipts Tax, Mcf Tax and Income Tax expenses related to this revenue adjustment were also decreased.

Amortization of Excess Deferred Income Taxes is estimated at \$125,000 for the year of 2019 on a total company basis (\$108,000 for Tax Cuts and Jobs Act of 2017 and \$17,000 for Tax Reform Act of 1986) and \$113,000 on a jurisdictional basis.

Exhibit H

Proposed Newspaper Notice:

Schedule S-3 (Proposed Newspaper Notice)

Ohio Gas Company
Case Nos. 19-1354-GA-ALT, *et al.*
Schedule S-3
Proposed Legal Notice

Ohio Gas Company has filed with the Public Utilities Commission of Ohio (“PUCO”) Applications seeking approval for an alternative rate plan and for tariff approval. The Application, *In the Matter of the Application of Ohio Gas Company for Approval of an Alternative Rate Plan*, Case No. 19-1354-GA-ALT, and a related case, *In the Matter of the Application of Ohio Gas Company for Tariff Approval*, Case No. 19-1355-GA-ATA, were filed on August 29, 2019.

Ohio Gas is seeking approval of these applications in order to implement a new rider, the Geographical Information System Cost Recovery Rider (“GIS Rider”). The proposed GIS Rider will recover the expenses associated with implementing a new geographical information system. The PUCO previously authorized the Company to defer the expenses sought for recovery in the GIS Rider.

The geographical information system will support the Company’s mission in many ways, including a) providing reliable and uninterrupted service to its customers; b) allowing Ohio Gas Company to take prompt action when concerns arise; c) maintaining Ohio Gas Company infrastructure through regular inspections, surveys, responses to customer inquiries, and routine maintenance and repair activities; d) providing additional means to effectively respond to inquiries from the Ohio Utilities Protection Service (“OUPS”), including prompt responses to requests for marking the location of underground facilities; and, e) complying with PUCO regulations including rates, efficiency, pipeline safety, minimum service standards for providing service, consumer safeguards, and various records management and reporting requirements.

Ohio Gas Company proposes a rate of \$0.86 per month per customer for the GIS Rider. This rate reflects the amount necessary to recover the prudently incurred GIS expenses over a 24-month period, plus a potential one-month rate to reconcile recoveries under the GIS Rider with the authorized deferral amount. The potential reconciliation rate will not exceed \$0.86 per customer. If a customer consumed 100 CCF of natural gas, the percentage increase in the customer’s total bill would be 0.14% over current charges.

This case does not propose to change the way that natural gas will be secured for the customer under the Community Energy Partnership or transportation contracts that have been entered by certain large natural gas users and Ohio Gas Company.

Recommendations which differ from the Application may be made by the staff of the PUCO or by intervening parties and may be adopted by the PUCO.

Any person, firm, corporation, or association may file, pursuant to section 4909.19 of the Revised Code, an objection to such proposed increased rate by alleging that such proposal is unjust and discriminatory or unreasonable.

A copy of the Application is available for inspection at the office of Ohio Gas Company located at 200 West High Street, Bryan, Ohio 43506 and at the PUCO, Docketing Division, 11th Floor, Columbus, Ohio 43215. The Application and supporting documents may also be viewed at the PUCO's web page at <http://www.puco.gov>, by selecting the link to the Docketing Information System ("DIS"), inputting 19-1354-GA-ALT in the case lookup box, and selecting the date the Application was filed.

Step 7

E-Filing Confirmation

Filings received after 5:30 p.m. Eastern Time will be deemed to be filed the following business day. All filings and document information is subject to review by the PUCO Docketing Division.
